10 REASONS WHY YOU SHOULD CHOOSE A GRACELAND PORTABLE BUILDING®!

1	BETTER BUILDINGS: For two decades, Graceland has offered demonstrably superior buildings, earning us the highest customer quality ratings in the industry year after year.
2	SUPERIOR SERVICE: Graceland has numerous highly-dedicated Customer Service Teams to support you before, during, and after the sale -- which is why our customer satisfaction ratings are as high as some of the most popular companies in the world.
3	STRONGER WARRANTIES: Graceland offers the strongest warranties in the business. Buy or rent from Graceland with confidence knowing you will be well-protected long after the sale.
4	EXCLUSIVE BREATHABILITY: Graceland buildings “breathe in” fresh air through our patented soffit vents and “breathe out” hot, moist air through our fine-screened ridge vents resulting in up to 15-degree cooler temperatures on hot days, preventing mold and mildew, and reducing rust and moisture damage to garden and home supplies, tools, and engines.
5	STURDIER FRAMES: Graceland’s studs are 16” on center; we double our studs every 3rd stud; we double our top plates; and we reinforce our doors and windows making our buildings the sturdiest available.
6	ENHANCED FLOOR & WALL DURABILITY: Graceland Signature Series buildings come standard with 5/8” treated tongue and groove plywood floors and T1-11 or Duratemp treated plywood walls, offering superior strength and durability, plus unsurpassed resistance to mold, mildew, insect, and rodent damage. Competitive buildings come standard with OSB / particle-board flooring and siding, which speaks for itself.
7	FIRMER FOUNDATIONS: Graceland uses notched, treated 4x6 floor runners plus treated 2x6 floor joists (rather than 2x4) which makes our foundations stronger, more durable and more resistant to mold, mildew, insect, and rodent damage.
8	OPTIMIZED FASTENERS: Graceland uses hot-dipped, galvanized, ring shank nails which hold like screws and will not rust, coupled with Hurricane Screws, which dramatically bolster wind resistance and weight load capacity.
9	BUDGET FRIENDLY: Graceland offers an extensive selection of new and pre-owned buildings coupled with a broad array of flexible rent-to-own / lease-to-own financing options for almost any budget. Credit issues? No worries because we do not check your credit.
10	FREE DELIVERY & SETUP: Graceland offers free delivery and setup up to 50 miles from the dealer you order from, avoiding the hidden “add-on” charges of our competitors.

Graceland Portable Buildings® Wooden Ramps

Graceland Portable Buildings is pleased to offer ramps to support the many ways our valued customers use our buildings. Graceland's durable and sturdy ramps have a weight limit of 600 lbs. per ramp and allow for easy access for mowers, ATVs, wheelbarrows, motorcycles, scooters, golf carts, and so much more.

Graceland ramps can be positioned side-by-side to form one large, combined ramp, or separated to match the distance between the wheels of most four-wheeled vehicles (that do not exceed the 600-lb. per ramp maximum load rating).

Graceland ramps are sold in pairs, but additional add-on ramps can be purchased separately. Importantly, Graceland ramps can be added to both cash-purchase and rent-to-own contracts. The impact on your overall purchase price or monthly payment will be minimal.

So be sure to ask your Graceland Portable Buildings dealer to add ramps to your cash-purchase or rent-to-own contract. We are confident you will be very glad that you did!

RAMP FEATURES:

2' X 6' TREATED LUMBER

Provides strength and maximum resistance to warping, weathering, wearing, mold, mildew, insect, rodent and other damage.

STURDY ALUMINUM THRESHOLD AND RAMP CONNECTORS

Preinstalled aluminum door threshold and ramp connectors are convenient and durable and allow for quick adding, removal, or repositioning of Graceland ramps. Because both are preinstalled, no assembly is required.

RAMP OPTIONS:

- Pair of 2' x 6' ramps with adjustable threshold
- Additional add-on ramps available

GRACELAND RENTAL ADVANTAGE PROGRAM

What is the Graceland Rental Advantage Program (GRAP)?

If, during the course of your rental term, your building is damaged or destroyed by an “act of God” which renders it unusable, Graceland will waive your liability for damages to the building. Rental payments will stop and Graceland will reserve the right to retrieve our building. Customers will still be responsible for rental payments and/or late fees up until the claim is submitted and approved.

GRAP is not Insurance. The Graceland Rental Advantage Program is a waiver of specific terms and conditions and is not to be considered insurance coverage. It waives the customer’s liability for damage to the building and halts future rental payments. Customers are still responsible for all rental payments and/or late fees up and until the claim is submitted and approved. For more information about the Graceland Rental Advantage Program or to submit a claim, please call Graceland Customer Service at 866-574-7446, Option 3.

WE HAVE IT COVERED!
